# Leiden – The Netherlands

Leiden is currently the 4th biggest conference destination in the Netherlands. The city is famous for its university, museums, waterways and its quest for knowledge and freedom of expression. The historic canals, the beautiful buildings and alleyways have surrounded many who have made important discoveries over centuries.

#### Leidse Schouwburg – Stadsgehoorzaal

Showcasing a multitude of performances, performers and events, our buildings are part of the extensive history of Leiden. The Leidse Schouwburg was built in 1705, making it the oldest theatre in The Netherlands. Combined with the Stadsgehoorzaal these monumental buildings carry more than 500 years of history.
